EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌐] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined.....*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF URQUHART

ELGINSHIRE

INDEX TO THE SHEETS

Published on the Scale of $\frac{1}{2500}$ or 25·344 Inches to a Mile

Scale of this Index One Inch to a Mile.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile,* which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place

* Or 3·157 chains to an inch.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Examples—

A.	R.	P.	Acres.	A.	R.	P.	Acres.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ʃ) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ʃ) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scale of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF URRAY

INVERNESS-SHIRE

INDEX TO THE SHEETS

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scale of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

Examples—

A.	R.	P.	Acres.	A.	R.	P.	Acres.

INDEX TO THE SHEETS

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌒] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall.....	*F.W.*	Track of Stream.....	*T.S.*

Undefined..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF WALLS

ORKNEY & SHETLAND

(Orkney)

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌉] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother	P	Civil Parishes or Townships	*T*
Extra Parochial	E	Division of Townships	*T*

Municipal Wards.....W

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined.....*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (*f*) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	*T*
Extra Parochial	E	Division of Townships	*T*

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	*C. S.*	Centre of Fence	*C. F.*
Centre of Road	*C. R.*	Top of Cop	*T. C.*
Side of Stream or Drain	*S. S.* or *S. D.*	Centre of Wall	*C. W.*
Root of Hedge	*R. H.*	Defaced	*Def.*
Face of Wall	*F. W.*	Track of Stream	*T. S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile,* which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place

* Or 3·157 chains to an inch.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

IN THE

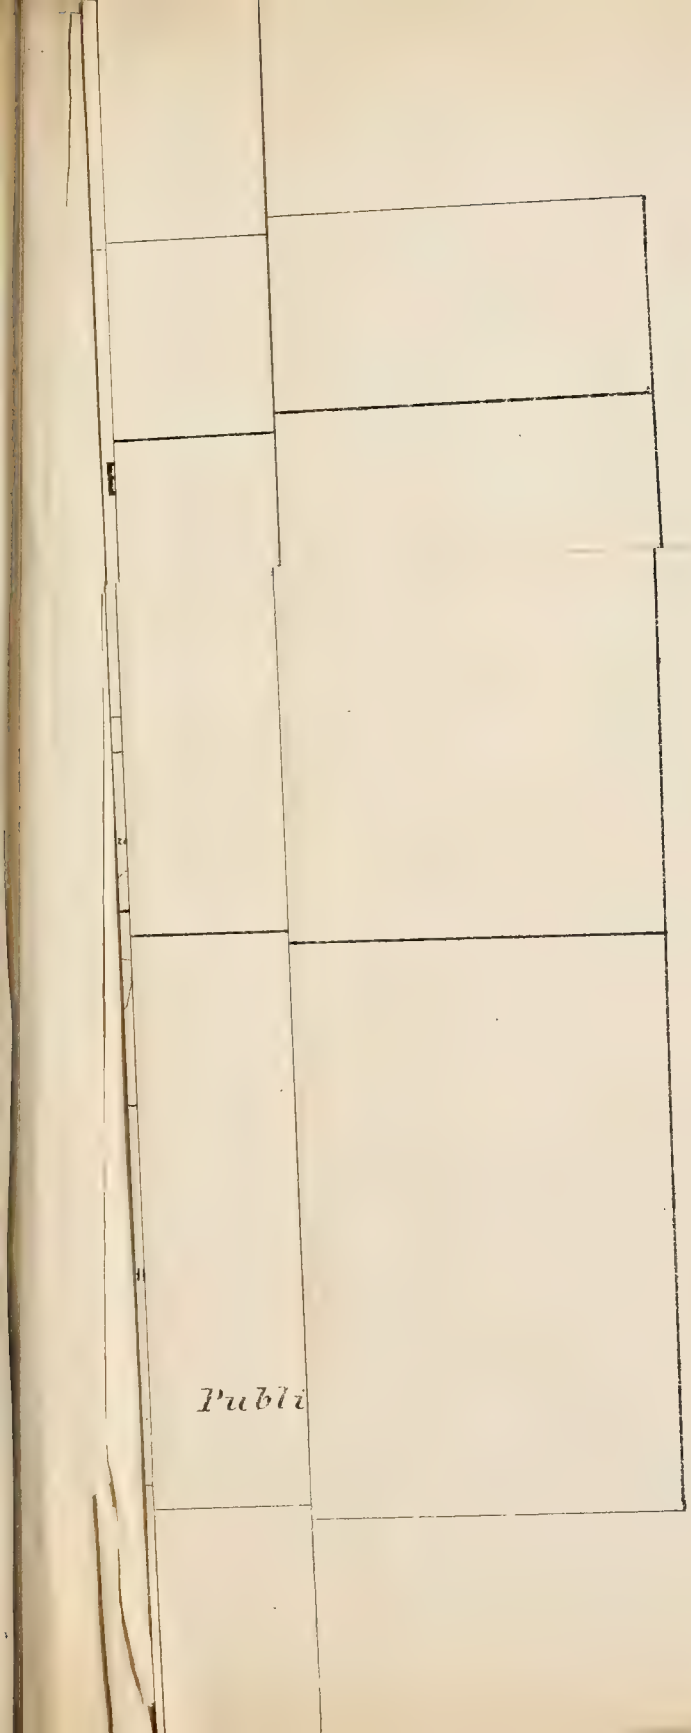
COUNTY OF PERTH.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1867.

Price One Shilling and Sixpence.



Publi

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is one and a-half miles, and the width one mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces [ ] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is, therefore, a double reference number to each sheet as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plan. n the Scales of 1-2500 and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials:—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ..	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF WEISDALE

ORKNEY & SHETLAND

(Shetland)

INDEX TO THE SHEETS

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌒] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre

(2.) The fences, &c., bounding either side of a railway are included wholly within its

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

14.

PARISH OF WESTRAY,

IN THE

COUNTY OF ORKNEY AND SHETLAND
(ORKNEY).

Price Two Shillings and Sixpence.

EXPLANATORY REMARKS.

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

T

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌉] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother	P	Civil Parishes or Townships	*T*
Extra Parochial	E	Division of Townships	*T*

Municipal Wards ..... W

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF WHALSEY

ORKNEY & SHETLAND

(Shetland)

INDEX TO THE SHEETS

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌐] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream.....	*T.S.*

Undefined.....*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

PARISH OF WHITENESS,

IN THE

COUNTY OF ORKNEY AND SHETLAND,

(SHETLAND).

Price One Shilling.

ORDNANCE SURVEY OF SCOTLAND

PARISH OF WHITENESS

ORKNEY & SHETLAND
(Shetland)

INDEX TO THE SHEETS

	XLVIII.6	XLVIII.7

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌐] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream.....	*T.S.*

Undefined.....*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division which does not follow the centre of the fence, the area is calculated to the Parish or other boundary and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (ʃ) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream	*T.S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	*T*
Extra Parochial	E	Division of Townships	*T*

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	*C. S.*	Centre of Fence	*C. F.*
Centre of Road	*C. R.*	Top of Cop	*T. C.*
Side of Stream or Drain	*S. S.* or *S. D.*	Centre of Wall	*C. W.*
Root of Hedge	*R. H.*	Defaced	*Def.*
Face of Wall	*F. W.*	Track of Stream	*T. S.*
Undefined			*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

TABLE

FOR CONVERTING DECIMAL PARTS OF AN ACRE INTO ROODS AND PERCHES.

ORDNANCE SURVEY OF SCOTLAND.

BOOK OF REFERENCE TO THE PLAN

OF THE

PARISH OF YARROW,

IN THE

COUNTY OF SELKIRK,

CONTAINING 41859·090 ACRES.

COLONEL SIR HENRY JAMES, R.E., F.R.S., F.G.S., &c.,
SUPERINTENDENT OF THE ORDNANCE SURVEY.

PRINTED AT THE ORDNANCE SURVEY OFFICE, SOUTHAMPTON.

1860.

BY, R.E.

Yo edu

of Ca

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces (f) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	*C. S.*	Centre of Fence	*C. F.*
Centre of Road	*C. R.*	Top of Cop	*T. C.*
Side of Stream or Drain	*S. S.* or *S. D.*	Centre of Wall	*C. W.*
Root of Hedge	*R. H.*	Defaced	*Def.*
Face of Wall	*F. W.*	Track of Stream	*T. S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.

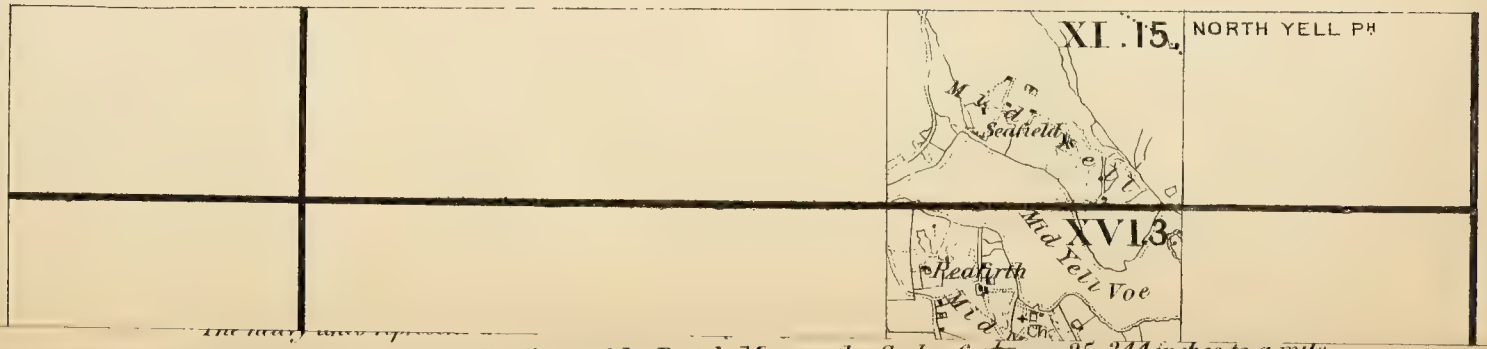
ORDNANCE SURVEY OF SCOTLAND

PARISH OF MID & SOUTH YELL

ORKNEY & SHETLAND

(Shetland)

INDEX TO THE SHEETS



The light lines represent the Sheets of the Parish Map on the Scale of 2500, or 25·344 inches to a mile.

The Roman numerals (XI) are the numbers of the County or Six-inch Maps.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌐] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... { ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream.....	*T.S.*

Undefined.....*Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

PARISH OF NORTH YELL,

IN THE

COUNTY OF ORKNEY AND SHETLAND
(SHETLAND).

Price One Shilling.

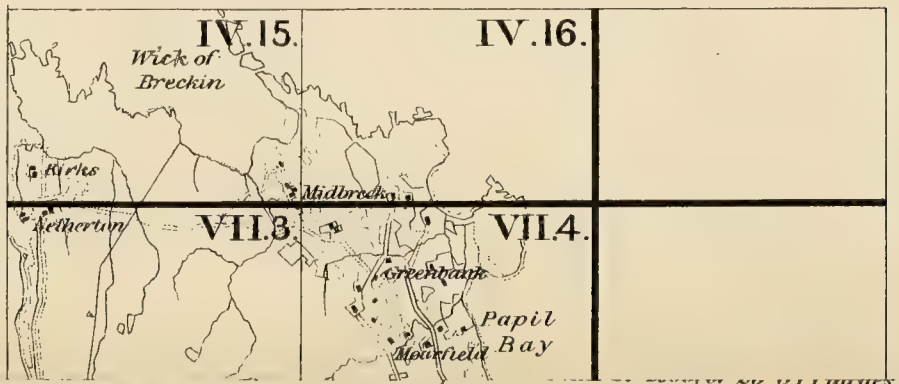
ORDNANCE SURVEY OF SCOTLAND

PARISH OF NORTH YELL

ORKNEY & SHETLAND

(Shetland)

INDEX TO THE SHEETS



The Roman numerals (VII) are the numbers of the County or Six-inch Maps.
The Roman numerals with plain figures affixed (VII. 4) are the numbers of the Parish or $\frac{1}{2500}$ Scale Maps.

EXPLANATORY REMARKS

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, or 3·157 chains to an inch, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is 1½ miles, and the breadth 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book; in the case of towns and large villages encircled by a red band, one number and area only are given for the portion within the red band, unless they are contained in more than one parish, in which case a number is given for the portion included in each parish.

The Braces [⌐] on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus —*31·4*.

The Scale of the County Plans is 6 inches to a mile, and each sheet contains 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet of the Parish Plans, as VI. 9., the first number referring to the County Plans, the second number to the Parish Plans.

The dimensions of the sheets on the Six-inch scale being four miles by six miles, the area is twenty-four square miles, equal to 15,360 acres.

The following are the characters employed on the Ordnance Plans on the Scales of 1–2500, and 6 inches to a mile :—

County Names	C	Hundreds or Wards	H
Parishes, Ancient or Mother.....	P	Civil Parishes or Townships	T
Extra Parochial	E	Division of Townships	T

Municipal Wards.....W

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shown by the following initials :—

Centre of Stream	*C.S.*	Centre of Fence	*C.F.*
Centre of Road	*C.R.*	Top of Cop	*T.C.*
Side of Stream or Drain ...	*S.S.* or *S.D.*	Centre of Wall	*C.W.*
Root of Hedge	*R.H.*	Defaced	*Def.*
Face of Wall	*F.W.*	Track of Stream.....	*T.S.*

Undefined..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to show the part at which the change takes place.

N.B.—The areas are computed to the centre of fence, or other boundary of enclosure, except in the following cases :—

(1.) When the fence or other boundary is also the boundary of a Parish or other Civil Division, which does not follow the centre of the fence, the area is calculated to the Parish or other boundary, and not to the centre.

(2.) The fences, &c., bounding either side of a railway are included wholly within its area.

N.B.—To convert Decimal Fractions of an Acre into Roods and Perches, multiply the decimal first by 4 and then by 40, preserving the same number of decimals in the product.

EXPLANATORY REMARKS.

The Scale of the Parish Plans is the 1-2500th of the actual length on the ground, and is equal to 25·344 inches to a mile, which is very approximately equal to one square inch to one acre, the square of 1·0018 inch being equal to one acre.

The length of each sheet is $1\frac{1}{2}$ miles, and the width 1 mile, the area of each sheet is therefore 960 acres.

Each enclosure has a reference number to the area which is given in this Book.

The Braces ($\int$) on the plans are to indicate that the spaces so braced are included under the same reference number.

The Altitudes in feet above the Mean Level of the Sea are written thus—31·4.

The Scale of the Plans of the County is 6 inches to a mile, and each sheet contains the same area as 16 sheets of the Parish Plans. There is therefore a double reference number to each sheet, as VI. 9., the Roman Numerals referring to the County Plans, the Arabic Figures to the Parish Plans.

The following are the characters employed on the Ordnance Plans on the Scales of 1-2500, and 6 inches to a mile:—

County Names	C	Hundreds or Wards	W
Parishes	P	Townships	T
Extra Parochial	E	Division of Townships	T

Antiquities ..... ROMAN / Druidical or Saxon / Norman or Subsequent

The descriptions of the boundaries are shewn by the following initials:—

Centre of Stream	*C. S.*	Centre of Fence	*C. F.*
Centre of Road	*C. R.*	Top of Cop	*T. C.*
Side of Stream or Drain	*S. S.* or *S. D.*	Centre of Wall	*C. W.*
Root of Hedge	*R. H.*	Defaced	*Def.*
Face of Wall	*F. W.*	Track of Stream	*T. S.*

Undefined ..... *Und.*

Where a change occurs in the boundaries, the symbol [o—o] is used to shew the part at which the change takes place.
